Wheat continues in light receipt, and prices have advanced 5a7c since yesterday, and choice tots sold to-day at 193; other sales of inferior quality at 170a187. Corn is active, with sales of mixed at 53 and 57. 122 bushels of Rye sold at 33 and 35. No Oats reported.

FISH REPORT. - Receipts at Fishtown since yesterday amount to about 1600 Shad and 15,000 Herring. Prices were 22a\$27 per hundred for Shad; 13 to \$15 per thousand for Herring; 35c per bunch for Rock and 10e per bunch for Perch. Rock and Perch continue to grow

The New York Herald says of the fish market

"The shad season on the Delaware opened last week, and reports were circulated that the supply was very small, owing to the operations of poschers. It was also said that the supply on the Hudson was very small, and that New York would have to depend largly during a portion of this season on the South. A Herald reporter vesterday visited Fulton Market for the purpose of ascertaining whether there was any truth in these reports and to hear the opinion of those pest informed on the subject. To all appearances the supply of shad was very plentiful and demand somewhat brisk, but on inquiry it was found that the supply was almost entirely from the South. Reports of a scarcity on the Dela-ware had reached the dealers, but most of them seemed to attach little importance to them, and the general opinion seemed to be that if there was any truth at all in them they were very much exaggerated. Not a few seemed to think the reports had been circulated simply for the nurpose of giving a slight stimulus to trade. Naturally on the conclusion of Lent the demand for fish of all kinds must be largely diminished in a city containing such a large proportion of Catholics as New York, but, the shad is a favorite fish and is not likely to be much effected by such matters. As the shad generally arrives in New York waters on its yearly northward tour to despoit its spawn about the end of March or the beginning of April, it will soon be made apparent whether the reported scarcity will effect the supply of the New York market to any appreciable extent. Some of the specimons seen a the market yesterday were very fine and brought good prices.
